30.01.2019

Dear Mr. Munk,  
Dear Sirs,

thank you so much to visit us here in Leipzig last Monday to explain us in a very interesting meeting concerning the challenges and the big chances in the matter of the Intangible Heritage of Humanity and especially to inform us about the idea of applying UNESCO for a protection of the classic European choir schools and their choirs of boys and men as an *all-national intangible world heritage*.

We want to express our great interest to be a part of that also for us important application and we want to support your idea.

Please keep in touch with us to let us find together a way with the other partners to bring the application to a final positive result.

Please find attached our German written declaration of support with a short choir biography.

We thank you very much for your kind invitation to Copenhagen in 2024. Let us speak later in that matter.

Best regards

Professor Gotthold Schwarz

Thomaskantor
